

# An Introduction to Experimental Mouse Pathology

An RCPATH/BSTP Event

Friday 23 April 2010

5 CPD Credits

To be held at The Royal College of Pathologists, 2 Carlton House Terrace, London, SW1Y 5AF

Mouse models are widely used within both academic and industrial biomedical research yet there is a recognized lack of training in this area. The content of this meeting jointly sponsored with the BSTP will be suitable for veterinary and medical pathologists and scientists working with mouse models.

09.30	Registration and Coffee
10.00	Introduction
10.05	Generation of mouse models of human disease
10.50	Background and approach to mouse pathology phenotyping.
11.35	Coffee
11.55	Avoiding pitfalls associated with genetic manipulation/Lesions induced by the genetic manipulation process
12.30	Lunch
13.30	Infectious diseases in mouse colonies – impact on experimental outcomes
14.45	Coffee
15:15	Comparison of background lesions in young and ageing mice
16.15	Discussion – provision of training for mouse pathology
16.45	Close
