

Joint Meeting on Molecular Pathology Diagnostics

Friday 7th July 2017

6 CPD Credits

To be held at CCIPFA, 77 Mansell Street, London, E1 8AN

The aim of the event is get a broad overview of what Medical, Veterinary and Toxicological Pathologists are doing within the field of Molecular Pathology, learning from each other and obtaining updates on cutting edge data from industry and the wider scientific community. This event will be of interest to veterinary, histopathology, toxicology, haematology pathologists of all levels.

09.30 **Registration and Coffee**

Chair: TBC

10.00 New Developments in the laboratory - **Professor Mohammed Ilyas, University of Nottingham**

10.45 Molecular aspects of immunodeficient mouse models used in cancer drug discovery - **Dr Liz McInnes, Syngenta**

11.30 **Refreshments**

11.50 Omics, pathway mapping and molecular markers in rodent models of neoplasia and evaluating their relevance to humans - **Dr Jayne Wright, Syngenta**

12.35 Clonality testing in lymphoma in small animal diagnostic veterinary pathology - **Dr Iain Peters, Torrance Diamond Diagnostic Services**

13.20 **Lunch**

14.00 New molecular biomarkers – **Dr Maggie Cheang, ICR London**

14.45 Mouse Models – **Dr Nicole Sodik, Cambridge University**

15.30 **Refreshments**

15.50 Integrating molecular and conventional diagnosis in human B-cell neoplasms, with some cross-species considerations
Dr Reuben Tooze, University of Leeds

16.35 Molecular Pathology update in Histopathology - **Professor Simon Herrington, University of Edinburgh**

17.20 **Close**
