

Glomerular Disease Summit Agenda

Monday April 4, 2022

7:30-8:00 Breakfast

8-8:45 Diagnosis of glomerular diseases in humans (Sergey Brodksy)

9-9:45 Diagnosis of glomerular diseases in companion animals (Rachel Cianciolo)

9:45-10:00 Break

10:00-10:45 Immune-complex mediated diseases in humans (Sharon Adler - virtual)

11:00-11:45 Immune-complex-mediated diseases in companion animals (Cianciolo)

12:00-1:00 Lunch

1:00-1:45 Podocytopathies in humans (Agnes Fogo)

2:00-2:45 Podocytopathies in companion animals (Jessica Quimby)

2:45-3:00 Break

3:00-3:45 Short research presentations

4:00-5:30 Reception

Tuesday April 5, 2022

7:30-8:00 Breakfast

8-8:45 Short research presentations

9-9:45 Short research presentations

9:45-10:00 Break

10:00-10:45 Biomarkers of glomerular diseases – humans vs. companion animals (Mary Nability)

11:00-11:45 Treatment of glomerular diseases in companion animals (JD Foster)

12:00-1:00 Lunch

1:00-2:00 Treatment of glomerular diseases in humans (Brad Rovin).

2:00-2:45 **Breakout session group** – what are the knowledge gaps that need addressing over the next 5 years? Which of these can be addressed by leveraging spontaneous glomerular disease models?

2:45-3:00 Break

3:00-4:00 **Discussion points from breakout session group**, wrap up and road map
