20 November 2024

### **Invitation for sponsorship and/or to be an exhibitor at the 2nd Joint ESTP/BSTP Toxicologic Pathology Congress**

We are very pleased to announce the 2nd Joint ESTP/BSTP Toxicologic Pathology Congress, which will be held at **Hilton Deansgate Hotel** from **September 23<sup>rd</sup> – 26<sup>th</sup> September 2025** in **Manchester, UK**.

The European Society of Toxicologic Pathology (ESTP) was established in October 2002 with the aim of developing a strong European foundation for toxicological pathology. It is continuing to be a fast-growing society with now over 300 members. The British Society of Toxicologic Pathology (BSTP) was established in 1975 to foster training and advance education in toxicological pathology and to advance pathology for the public benefit. The joint ESTP/BSTP Congress is expecting approximately 250 participants from all over the world to join for the opportunity to learn and discuss scientific and regulatory topics, as well as new developments within our field of drug development, safety assessment and registration of drugs, agrochemical and biocides amongst others, whilst providing a relaxing environment for professional networking. Feedback given by the attendees and participating companies in previous congresses were excellent and they were considered by all to be a great success. Presentations from renowned, international experts, as well as the possibility for everyone to participate in case presentations and talks, help to make the Congress attractive for colleagues from all over Europe and beyond. ESTP and BSTP are especially keen to promote the state of the art education to our members as well as to attract younger generation, residents and early career pathologists, who may be deciding on careers or starting in the field of applied toxicological pathology. ESTP and BSTP are registered not-for-profit organizations and with your financial help as a sponsor, we are able to organize meetings offering a scientific program of the highest scientific standard.

The 2025 congress is organized by the European Society of Toxicologic Pathology (ESTP) and the British Society of Toxicologic Pathology (BSTP). The title of the Congress is **"Carcinogenicity in the 21st Century; challenges of new methodologies, strategies, and their impact on pathologists."** The program will include new methodologies and alternatives for the assessment of carcinogenicity testing of agrochemical and pharmaceuticals, predicting carcinogenetic potential of compounds at early stages, carcinogenicity assessment of new modality drugs, risk assessment and human relevance of neoplastic and non-neoplastic findings in carcinogenicity studies.

**2nd Joint ESTP/BSTP Toxicologic Pathology Congress**

*September 23<sup>rd</sup> – 26<sup>th</sup> 2025*

*Manchester, UK*

*Organized under the auspices of the*

*European Society of Toxicologic Pathology*

*British Society of Toxicological Pathology*

***[www.estp-congress.eu](http://www.estp-congress.eu)***

We encourage sponsorship from any organization with an interest/expertise in toxicological pathology. Sponsors will be publically acknowledged during the meeting and the name and logo of your organization will be posted on our congress website [https://www.esvp-ecvp-estp-congress.eu/estp\\_congress](https://www.esvp-ecvp-estp-congress.eu/estp_congress) as well as in the Congress program.

The ESTP is recognized as a non-profit organization of public benefit and can issue donations statements for tax purposes and the BSTP is a not-for-profit, registered UK charity organization.

If you would like to sponsor this Congress, or if you need further information, please contact us by replying to our Congress organiser, Mirel Kostons at Partners in Congress Organisation (m.kostons@pcopartners.nl / Tel.: +31 43 321 84 80).

Yours Sincerely,

Chairs of Scientific Organizing Committee

Ute Bach and Thomas Nolte (ESTP representatives)

Jon Carter and Zuhail Dincer (BSTP representatives)
